Biography

Dr. Berkant Sezer completed his high school education in Zonguldak Science High School after completing primary education as the valedictorian student. He graduated from Gazi University School of Dentistry, where he studied between 2010-2015, with high honor degree. He completed his specialty training in Department of Pediatric Dentistry, School of Dentistry, Marmara University in 2016 with his thesis titled "Molar-incisor hypomineralization: Assessment of treatment approaches with different remineralizing agents" and received the title of pediatric dentist in 2020. In September 2020, he started to work as an assistant professor at Department of Pediatric Dentistry, School of Dentistry, Çanakkale Onsekiz Mart University, and received the title of associate professor in February 2023. Dr. Sezer is one of the scientists who received this title in the field of health sciences at the youngest age, and in the field of pediatric dentistry, he became the youngest scientist in our country to receive this title. Dr. Sezer, who has been serving as the Chairman of the Education and Curriculum Commission of Çanakkale Onsekiz Mart University School of Dentistry as of 2023, has also served as the chairman of the Turkish Society of Paediatric Dentistry (TSPD) Young Commission, which was established for the first time in the 2022-2024 period of the TSPD.

He was awarded a scholarship by the University of Washington in 2018 and was found in Seattle, Washington, USA within the scope of "Summer Institute in Dental and Craniofacial Clinical Research Methods" in the same year. In addition, he was awarded the Travel Fellowship by the European Organization for Caries Research (ORCA) in 2017 in Oslo, Norway. In addition, he and his team were awarded the Borrow and Colgate Travel Awards by The European Association of Dental Public Health (EADPH) in Mallorca, Spain and Ghent, Belgium in 2018 and 2019. Dr. Sezer, who is the editorial board member of BMC Oral Health scientific journal in the Web of Science Q1 category, also serves as a referee in many international and national scientific journals.

His areas of interest are molar incisor hypomineralization and other developmental enamel defects, minimally invasive dentistry and remineralization agents, community oral and dental health, current restorative materials, forensic dentistry and dental education.
